Enjoy every part of cooking

A kitchen is not only a wonderful place where we spend a lot of time. A kitchen also reflects our personality. At Franke we are well aware of that and want to make the time you spend in your kitchen even more enjoyable. This is why Franke is now offering the new Mythos appliance family range that are the perfect combination of quality and design and will let you enjoy every minute in the heart of your home. No matter which product you choose, your unique needs for a modern kitchen will be met, creating a satisfying cooking experience.

Pleasing Perfection

That's what you always wanted for your kitchen: Absolute precision is Franke's signature and what Mythos stands for. Technical perfection, elegance, and powerful design make Mythos a classic.

A magical moment

Special features on Mythos are the CookAssist functions of the hobs and ovens. For example, by just pressing a single button, your hob can cook a perfect steak and you never worry about it getting burned. And there are many more fantastic features to prepare everything from sauces and vegetables to desserts. It's almost magic.

A hot topic

Are you always wondering how to keep your tableware and food at just the right temperature? This Warming Drawer will do exactly that and even more. For example, thawing frozen food. Once you have it, you'll never want to be without it.

A steamy solution

The special new steam function allows you to cook more calorie-conscious food, with no loss of flavour. And with the surprisingly large internal capacity you'll have more space to steam or bake different dishes at the same time.

Finished to perfection

A minimalist glass-based design that leaves space for your personal expression. The new black look of Mythos comes with burnished metal elements as an elegant and perfect finish. The high-tech patterns of the hob and the thin and functional steel handles of the oven are unique. Mythos allows a convenient side-by-side gallery installation – which is wonderfully completed with the compact oven above the warming drawer. Altogether, the elegant proportions and the new finish of Mythos harmonise with any style of kitchen.

Smooth2Close System

The door of the Mythos oven closes softly, silently and precisely.

Multicooking 4 levels

With the Multicooking function it is possible to cook up to 4 dishes at the same time, thanks to the perfect heat distribution. Preparing pizzas, cakes or even a complete menu from appetiser to dessert has never been so simple and fast.

Telescopic Guides

Taking a hot baking tray from the oven is not an easy task. The optional telescopic guides available for your Mythos oven are the right solution. You can customise your oven and add guides as an accessory on as many levels as you want.

MYTHOS EXTRACTION

Mythos 2gether

The Mythos 2gether sits flush with the worktop, making it easy to slide your pans across each zone. The compact motor design saves space in the cabinet and is fully waterproof, offering complete safety.

Mythos Flat Ceiling

The premium ceiling hood with large illuminated panel displays a warm to cool white light to set the mood in the room. The overall height is a slim 20cm, allowing easy installation into tight ceiling spaces.

AQ SENSE

Keep the air you breathe clean and the atmosphere in your home pleasant with our innovative AQ Sense hoods. Designed to constantly monitor indoor air quality and activate automatically when unsafe levels are detected.

AQ Sense Monitor

This hood boasts WIFI connectivity and 21" colour touch screen to enable you to watch your favourite videos and recipes via a web browser while you are cooking.

This hood is also app-enabled allowing you to control the settings via your mobile phone, or alternatively use Amazon Alexa, Google and Siri!

AQ Sense Vertical

The AQ Sense Vertical Wall Hood will ensure your kitchen is clean and safe. By monitoring humidity, and levels of VOC's (volatile organic compounds) this hood will auto-activate when acceptable levels are exceeded.

Operating the hood could not be simpler and can be controlled by your mobile phone app or even by talking to your Amazon Alexa, Google and Siri!

AQ Sense Ceiling

Constantly monitors VOC's, air temperature and humidity to ensure your kitchen and home remain a fresh and pleasant environment. There's an auto and 24 hour function, Franke@Home App and is also Alexa compatible so controlling the hood is easy with either voice or remote control.
